Weather Vocab

Across

- 1. direct transfer of heat energy from one substance to another.
- 3. transfer of heat energy in a fluid (gas or liquid)
- 6. flow of air from the sea to the land.
- 7. movement of air from an area of high pressure to an area of low pressure.
- 8. the process in which carbon dioxide and other gases in the atmosphere absorb infrared radiation from the sun, forming a "heat blanket" around the Earth.
- 9. measure of the force of air pressing down on the Earth's surface.
- 10. instrument used to measure temperature.

Down

- 1. shift in wind direction caused by the rotation of the Earth on its axis.
- 2. flow of air from the land to the sea.
- 4. instrument used to measure air pressure.
- 5. instrument used to measure wind speed.
- 9. the mixture of gases that surround the Earth.
- 11. transfer of heat energy through empty space.

13 of 13 words were placed into the puzzle.
